DETAILED ACTION

Claim Rejections - 35 USC § 112

The following is a quotation of the second paragraph of 35 U.S.C. 112:

The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter which the applicant regards as his invention.

Claims 1-5 are rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.

Re claim 1, the recitation "switching a bringing state of a moving member for knitting which moves while being brought by at least one of front and rear carriages which, while moving along front and rear needle beds of the weft knitting machine, let knitting needles arranged side by side in each of the needle beds perform a knitting operation, the moving member for knitting a fabric in cooperation with the knitting needles" is narrative statement that is confusing as to the movement and structural relationship of the carriages. It appears to be a literal translation from the foreign document. Also the term "bringing state" is unclear as to what and where the elements are being brought.

Re claim 2, the term "bringing positions" has no clear antecedent basis.

Allowable Subject Matter

Claim 1 would be allowable if rewritten or amended to overcome the rejection(s) under 35 U.S.C. 112, 2nd paragraph, set forth in this Office action.

Art Unit: 3765

Claims 2-5 would be allowable if rewritten to overcome the rejection(s) under 35 U.S.C. 112, 2nd paragraph, set forth in this Office action and to include all of the limitations of the base claim and any intervening claims.

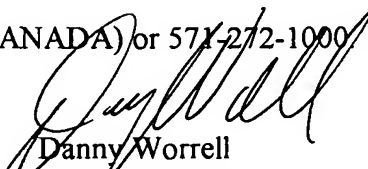

Conclusion

The prior art made of record and not relied upon is considered pertinent to applicant's disclosure.
